New “Lift-It-Up” Chain Provides Quick Overhead Lifting Solutions

Pewag is pleased to introduce a new ready to use “Lift-It-Up” Overhead Lifting chain system. Lift-It-Up is available in 5’ & 10’ lengths and provides a safe and easy solution to many overhead lifting application needs. No need to work with bulky loose chain, complicated grab hooks or other straps that often cause unsafe conditions.

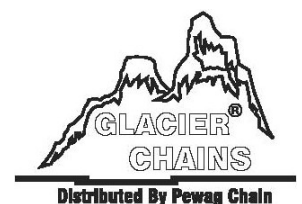

This new chain system is perfect for automotive, industrial, farm and agriculture applications.

Key Features & Benefits Include:

- Assembled - ready to use 7/32” Professional Grade 100 chain assembly is specifically design for overhead lifting applications
- Can handle up to 3 ton loads
(using quad assemblies)
- Unique integrated shortening hook design is completely adjustable and eliminates improper choke, wrapping or knotting of chain
- **OSHA approved** - Includes sling tag
- Available in single, double and quad length assemblies
- Sold in 5’ & 10’ lengths
- Perfect for home and professional shop use
- Convenient storage bag included
