## Pewag Load Securement Systems Up To 58% Stronger Than Standard Chain

If you're looking for the ultimate load securement system; we have it! Pewag makes the "World's Strongest Chain" and offers premium Grade 100 and 120 load securement systems which are up to 58% stronger than standard grade 70 tie down chain.

### Key Features & Benefits:

#### Grade 100 Load Securement System

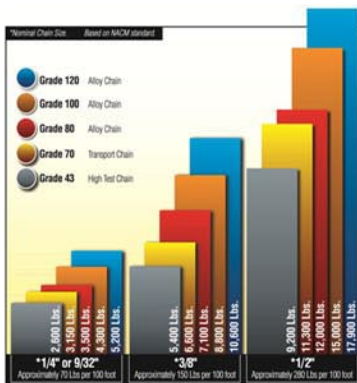

- **Up to 33% stronger** than the standard Grade 70 tie-down chain
- High quality European Chain and Components
- Meets and exceeds NACM (North American Chain Manufacturers) specifications
- Due to the higher strength G100 chain can be downsized in many applications resulting in less weight and easier handling & use

#### Grade 120 Load Securement System

- **Strongest chain in the world! Up to 58% stronger** than Grade 70 chain
- High quality European Chain and Components
- Meets NACM (North American Chain Manufacturers Specifications for lifting chains
- Due to the higher strength G120 chain can be downsized in many applications resulting in less weight and easier handling & use
- All chains are color coded (blue) with high resistant coating for maximum protection; even in the harshest environments

**Pewag Premium Load Binders Provide The Strongest Work Load Capacity In The World!**

### Load Binder Key Features & Benefits:

- High Strength Grade 100 or 120 Construction for maximum work loads
- Forged steel eye bolt, steel barrel construction & cast handle assembly
- High load capacity trapezoidal thread form
- Short reach hooks provide for maximum take-up
- Double Acting Spring loaded pawls
- Working load limit, chain size & batch code stamped on handle
- Meets NACM specifications of 4:1 design safety factor on working load limit
- Meets or exceeds US FMCSA & CVSA regulations including 49 CFR parts 392 & 393
