Winter Is Coming - - - Are You Ready?

Don't let this happen to you. Be prepared for winter with Pewag Premium traction Chain. **We produced the world's 1st Tire Chain in 1912** and are the recognized world leader in traction chain technology.

Pewag is the Preferred chain of the US and Canadian Military!

Pattern Chain

- Made of premium alloy "TITAN Grip" steel-63-RHC – tool like steel hardness
- More chain stays in contact with the road providing superior road gripping ability to standard twist-link chain
- Provides superior lateral stability
- Provides shorter brake distance
- Provides a smoother ride, since chain is always between the tire and the road
- Saves money in the long run
 - * Lasts 5 times longer than standard twist-link chain
 - * Can be reversed for better wear and longer life

Ladder Chain "Square Link Chain Design"

- Made of premium alloy "TITAN Grip" steel-63-RHC – tool like steel hardness
- Provides superior road gripping ability to standard twist-link chain
- Extremely durable and efficient – less downtime
- Preferred chain by State & County D.O.T.'s and City Public Works
- Saves money in the long run
 - * Lasts 5 times longer than standard twist-link chain
 - * Can be reversed for better wear and longer life
 - * Chains are repairable – lowers long term cost
