Flip the switch and avoid the ditch

The automatic icechain

When driving down a treacherous stretch of icy highway, you know you'll need to chain up, but the last thing you want to do is subject yourself to the elements. The bitter cold, the biting snow. Not to mention the other drivers. So what do you do? Hopefully you have Insta-Chain, which provides you with instant traction at the flip of a switch. It saves time. It saves money. And most importantly, it saves lives. insta-chain.com

Key benefits of Insta-Chain

- :. Fits ½ Ton — Class 8 vehicles, including ambulances, fire trucks, semi-trucks, buses and more.
- :. Operates in forward and reverse with traction increasing during acceleration and deceleration.
- :. Far outlasts conventional chains as they are only operated as needed.
- :. Spark resistant chains that are ideal for gasoline and propane delivery vehicles.
- :. D.O.T. accepted. Applies to all states with chain laws.
- :. Substantially reduces risks, incidences and costs.
- :. Family owned business committed to servicing customers like family.

Three features unique to Insta-Chain

1. Chain wheel with grease fitting.

2. Individually replaceable, non-directional, six or twelve strand chain wheels.

3. 100% greaseable arm bearings and ball joints
